

AlfA Whisky Tasting

Instructions

1. By each bottle, and on the website, the price *per cl* (*centilitre*) is given for the whisky.
2. It is *your responsibility* to note how much of each whisky you drink. Usually this is **2cl per shot**.
3. It is *your responsibility* to calculate how much you owe by **multiplying the cost per cl by the amount you drink**.
4. Do ***not* expect change**.
5. Please cough up promptly! Rob is happily ~€200 out of pocket because of the whisky tasting, but more eats into his insulin budget. . . **so not paying up is (attempted) murder!**
6. Please **wash the glass(es)** after use.
